THE CND TOOLKIT IS READY!

That's it ! After long months of testing with audiences, then readjustments, finishes and editing ... here are finally the «Sustainable Digital Awareness» educational trunks ready!

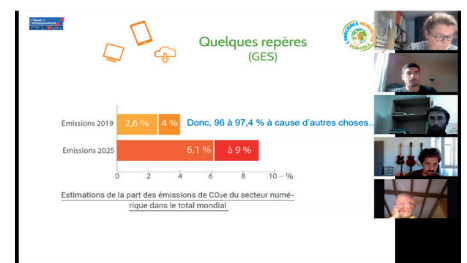

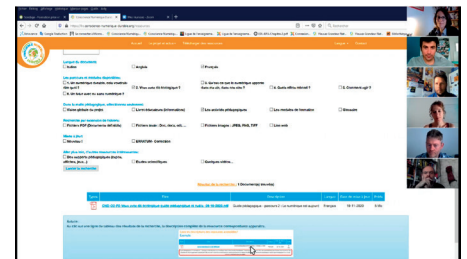

DISSEMINATION AND TAKING IN HAND ...

We are delivering 180 toolkits all over France, Belgium and Italy among a wide partnership of secondary schools, other educational centres, associations, networks of social and educational players community-based, and/or at a regional and national levels.

The three main project partners are organizing in these months a series of training workshops to facilitate the handing of the CND toolkit. **One of them is viewable on our site.**

The kit is accessible online for everyone (see next page).

The screenshot shows the website's header with navigation links: Accueil, Le projet et actus, Télécharger des ressources, Langue (with flags for France, Italy, and UK), and Contact. A large QR code is on the left. The main content area features a collage of images related to digital technology, sustainability, and education. A banner reads: "Bienvenue sur «Conscience Numérique Durable» «Rendre visible l'invisible pour comprendre et agir»". At the bottom, there are logos for partners including Région Occitanie, La Poste, and Erasmus+.

HELP-US to Communicate!

The website offers everyone **the possibility of freely downloading and reprinting our tools** on standard printers. This increases the possibilities tenfold!

Also, we invite those who will be able, through their networks, to relay information as we are committed to ensuring that everyone can take ownership of this collective work, make it evolve, and that it thus serve as an aid to the development of educational actions **for a broad awareness of the social and environmental issues of digital technology.**

OUR THANKS!

To the partner colleges, to the experts who have supported us, to the networks, to our financial supporters, to the associations, to the colleges, communities and other actors who have and will bring this work to life through the educational package, our most sincere thanks.

Thank you also to the entire work team that has carried this project in our 3 countries.
